KVS Examination Process – Important Instructions

These instructions are being shared to ensure a smooth and error-free examination process for all students.

Student Instructions

- Students must correctly enter their **Name, Class, Section, and Complete School Name**.
- For KVs, students must mention the **complete Kendriya Vidyalaya (KV) name along with the KV Code**.
- Students should **carefully recheck all details** before final submission.
- Students must **log in using their Adobe ID**.
- Students should attempt **all questions** in the Google Form.
- Teachers should provide students with the **Google Form link** for the examination.

Project Work

For the project component, students should:

1. Click on the **project link provided**.
2. Use the available **templates** to complete the project.
3. **Publish the completed project**.
4. Copy the **published project link**.
5. Paste the project link in the designated field in the **Google Form**.

Role of ICT instructors

Teachers are requested to **guide students through the examination and project submission process** and ensure that all required details are entered correctly before final submission.

Important: Please ensure that the **complete KV name and KV Code** are entered correctly to avoid any issues with student identification and examination records.

Kindly review the documents at your convenience. Should you require any assistance, please feel free to contact me at **8860133876**.
